Ratnala Raja

Associate Software Engineer

github.com/Ratnala Raja
linkedin.com/in/rajaratnala

Motivated **software** and **DevOps engineer** with hands-on experience in **cloud computing**, **CI/CD automation**, and mobile application deployment. Eager to contribute to engineering teams by building scalable infrastructure, automating delivery pipelines, and supporting reliable production systems.

Skills

Languages	C++, Python, JavaScript, SQL, HTML/CSS, React
Tools & DevOps	Git, GitHub Actions, Linux, Docker, Kubernetes, Terraform, Jenkins
Cloud	AWS, Azure

Work Experience

Backend & Devops Engineer / Elysia Mobile App — **June 2025 — Present**
Tricon Infotech Pvt Ltd — *Bangalore, Karnataka*

- Led mobile DevOps for iOS and Android, automating Play Store and App Store releases using **Fastlane**.
- Built secure and scalable **CI/CD pipelines** reducing release time by 70%.
- Managed **code signing**, **secrets**, and multi-environment deployments end-to-end.
- Developed **scalable APIs** with comprehensive **data validation** and error handling.
- Integrated **JWT-based security** for stateless API authentication and authorization.

AWS Cloud Computing Intern — **Aug 2023 — Dec 2023**
Technical Hub Private Limited — *Surampalem, AP*

- Architected and deployed scalable AWS cloud infrastructure leveraging key services including **EC2, S3, RDS,** and **Lambda**.
- Led the successful migration of the application to AWS cloud infrastructure, achieving a 30% reduction in operational costs and a 25% increase in system uptime.
- Optimized scalability and accessibility for cloud-native applications.

Projects

Revolutionizing Email Outreach with AWS Lambda — **GitHub**

- Leveraged AWS Lambda's auto-scaling to enhance outreach operations, increasing capacity by 150% and reaching 50% more prospects.
- Achieved a 40% boost in processing speed through Lambda integration and optimized resource utilization.
- **Tech Stack**: AWS IAM, Lambda, SES, CloudWatch.

DeepFake Detection — **GitHub**

- Executed application migration to cloud infrastructure, resulting in a 20% boost in user satisfaction and enhanced accessibility.
- Directed model training and validation processes, achieving a 25% improvement in detection outcomes.
- **Tech Stack**: Python, OpenCV, AWS Cloud, HTML/CSS.

Certifications

- AWS Certified Cloud Practitioner [link]
- Red Hat Certified System Administrator (RHCSA) [link]
- Microsoft Azure Fundamentals [link]
- IT Specialist – Python [link]

Education

Bachelor of Technology – Computer Science (IoT) — May 2025
Aditya College of Engineering and Technology
GPA: **7.9 / 10**

Intermediate Education (PCM) — April 2020
Kerala Public School
GPA: **8.7 / 10**

Matriculation Education — April 2018
Kerala Public School
GPA: **8.42 / 10**
